

MCS

**LET'S TALK PROJECTS.
LET'S SUCCEED.
LET'S BUILD STRONG &
HEALTHY COMMUNITIES.
...TOGETHER!**

Miles Consulting Services (MCS) is a specialized economic consulting and project management company with professionals that have been working with Indigenous communities for 10 years in the areas of health, education, environment and natural resources, housing, capital planning, project and program evaluation, business, and economic development.

MCS works with the client to create detailed business plans and other feasibility documents that helps secure funding for various community initiatives. MCS assists communities in securing funding for projects and programs in health, environment and natural resources, business development, education, housing, and capital planning.

MCS has a team of qualified professionals including Project Management Professionals (PMP), Construction Cost Estimator Consultants (CEC), M.A. (Economics) Economists, and various construction related certifications. This diverse expertise allows MCS to provide clients with a variety of services ranging from advisory services to turnkey project solutions. This diverse and experienced project team, along with sound methods and analytical tools, also ensures that all work completed is highly credible.

MCS Services Include:

(1) **Business Planning and Application Support** – MCS is highly familiar with the ISC and FNIHB processes and applications including the CORP/LEDSP application. Through these applications MCS works to bring in funding for communities looking to establish community businesses and improve education and health programs and infrastructure.

(2) **Project Management** – MCS provides turnkey project management solutions for capital projects making sure each milestone is met at every project phase – with success. MCS works with the community to ensure its benefits are maximized throughout each project phase including the supply of labour, materials, and equipment rentals for the project along with capacity development. MCS is also familiar with all ISC reporting requirements for capital projects.

(3) **Cost-Benefit Analysis for Education Projects** – MCS provides cost-benefit and value-for-money analyses for education and other projects. This allows funders to see the true benefit of adequate and improved education at the community.

(4) **Health Care Planning** – MCS assists Indigenous health providers in securing substantial funding for additional health staff and assists in establishing agreements between the province and nation.

(5) **Construction Cost Estimating** – MCS provides CEC certified construction cost estimates for capital projects.

(6) **Environmental Economics** – MCS uses advanced economic models along with community traditional knowledge to accurately determine the impacts caused by mining, hydroelectric and other resource developments for the purpose of negotiating compensation and adverse effects agreements.

(7) **Housing** – MCS works with Indigenous communities to improve their housing on and off reserve and is very familiar with ISC and CMHC requirements and applications. MCS engages various construction disciplines to ensure that new housing conforms to all client requirements as well as CMHC energy efficiency and other funding requirements.

(8) **Labour Market Information (LMI)** – MCS provides advanced LMI services to a variety of government and non-government organizations. This information can be useful for successful labour market planning in Indigenous Communities.

All projects and work by MCS are completed using best practices in economics, statistics, and project management. All projects are completed in the best interest of the client while adhering to all codes of ethics outlined in the PMP, CEC and other governing organizations.

If your community might benefit from the services provided by MCS, or to discuss a specific project, please contact:
